General
information.

Good to know: carefree travelling.

The following information will help to understand how public transport in Switzerland works. After all, taking the right decisions during the planning process is essential for any journey.

Public transport network

The Swiss public transport network includes over 29,000 kilometres (8,000 miles) of rail, road and waterway. It is therefore the densest network in the world.

Harmonised timetable

For international arrival or onward journey, trains and buses are available at border stations and airports. Connections are guaranteed in all places. Where no train service is available, the journey continues by bus, boat or even mountain railway. Hence, transfer is simple and easy to handle all throughout Switzerland.

Regular-interval timetable

Trains always leave at the same minute after each full hour. Main intercity connections operate at half-hour intervals. At major traffic hubs, trains arrive every full and half hour. Bus and boat connections are perfectly coordinated with these regular-interval timetables. The complete timetable is available at sbb.ch

Train categories

- InterCity (IC) trains connect larger cities without intermediate stops
- InterRegio (IR) and RegioExpress (RE) trains connect medium-sized centres within Switzerland. Regional trains serve all intermediate stations and provide access to the smaller branches of the network
- Major urban centres have their own suburban railway (“S-Bahn”) network. These trains, specially marked with an “S”, optimally serve the urban and suburban areas with a high-frequency timetable

1st class – comfortable travelling

Those who appreciate a bit of luxury travel 1st class. 1st class coaches provide additional amenities such as wider seats, more legroom and electrical power outlets. Furthermore, 1st class passengers benefit from quiet and business zones. Swiss boats also offer a choice between 1st and 2nd class. The 1st class is usually located on the upper deck, which offers a magnificent view of the scenery.

1st class of the Glacier Express

Seat reservation

- In Switzerland, most trains do not require seat reservation. Trains offering seat reservation are marked with an “R” in the timetable at sbb.ch
- For panoramic trains with mandatory seat reservation, reservations should be made at the earliest convenience
- Groups: Reservations for groups of 10 or more persons can be made free of charge at partnersupport@sbb.ch. Information signs and loudspeaker announcements on the train notify travellers of seat reservations

Surcharge

No surcharge applies on national, InterCity or InterRegio trains within Switzerland. Panoramic trains such as the Glacier Express and the Bernina Express as well as some PostBus lines (Palm Express) are usually subject to surcharge and/or require seat reservation.

Rail traffic information

Information about the current traffic situation and possible disruptions on the railway network is available around the clock via sbb.ch/en/166

Security on public transport

Public transportation in Switzerland is generally very safe. Security personnel routinely tours public transportation to guarantee the safety of the passengers. Criminal offences happen very rarely. By far the most common offence is travelling without a valid ticket. However, travellers are advised to follow the usual precautions against petty offences (comp. [page 87](#)).

Information about Corona measures

Current updates regarding restrictions on public transport due to the coronavirus can be found here: mystsnet.com/corona

Eurail/Interrail.

Boarding in Prague, alighting in Zurich – easy. That's travelling by train in Europe. The best tickets to do it are the Interrail and Eurail passes. Thus, nothing will get in the way of the individual, freely-arranged journey through more than 30 countries.

Eurail/Interrail Global Pass terms

The Interrail Global Pass is ideal for persons with permanent residence in a European country. The equivalent for guests from overseas (permanent residence outside Europe) is a Eurail Global Pass.

Coverage Global Pass

Coverage in Switzerland

- Unlimited travel on most railway lines
- 50% discount on some lake cruises
- 25% discount on some mountain excursions
- Available in 1st and 2nd class
- Discounts for young travellers and senior citizens
- Max. 2 children from the 4th to the 12th birthday travel free of charge with each adult

Coverage in Europe

Unlimited travel in more than 30 European countries

Validity

- Flexi Pass for 4, 5 or 7 days within one month
- Flexi Pass for 10 or 15 days within two months
- 15 or 22 days and 1, 2 or 3 consecutive months

Interrail One Country Pass

The One Country Pass is a flexible offer for 3, 4, 5, 6 or 8 days of validity within one month in a selected European country, with Switzerland among the selectable countries.

Seat reservation

Seat reservation is not included in the Eurail and Interrail passes. For a small surcharge, seat reservations guarantee a comfortable seat on well-frequented routes. Especially highspeed trains, international trains and night trains require a seat reservation. For regional and short-distance connections seat reservation is usually not necessary.

Point-to-point tickets

Single journey, return trip or round trip: these are the standard tickets available for any given route in the selected class. Holders of a Swiss Half Fare Card are eligible for a discount of up to 50%.

Supersaver tickets

On numerous Swiss railway and other public transport lines, supersaver tickets are available in 1st and 2nd class. They are only valid on the chosen travel date and for a specific, selected public transport connection (tied to a specific train). Offers are subject to availability. Guests receive up to 70% discount on standard and reduced* fares (*e.g. with Swiss Half Fare Card). Special regulations apply. Supersaver tickets can neither be changed nor refunded.

sbb.ch/supersaver-tickets

Day Pass

A Day Pass can be obtained in combination with a Swiss Half Fare Card. It is the ideal ticket for daytrips by train, bus and boat. It is valid almost on the entire public transport network throughout Switzerland. Day Passes are available in 1st and 2nd class. Using a Saver Day Pass, guests travel at an even more favourable fare. The earlier a Saver Day Pass is bought, the lower the price.

sbb.ch/saverdaypass

Group tickets

With a group ticket, groups of 10 or more persons travel cheaper on public transport, receiving a 30% discount. Various types of group tickets are available in 1st and 2nd class.

- Single journey, return trip or round trip
- Holders of a Swiss Half Fare Card are eligible for a discount of up to 50% on the group fare

Regional travel system tickets

There are roughly 20 regional traffic and fare associations making it even easier and cheaper for travellers to get around by public transport. They only need one single ticket to travel on the networks of different transportation companies.

Swiss Travel Pass e-ticket

Children travel at reduced prices or even free of charge

Children up to their 6th birthday travel free of charge. Children from their 6th up to their 16th pay half price or any defined minimum fare.

- Junior travelcard and Children's Co-Travelcard:
Travellers without a Swiss Travel System ticket may obtain a Junior travelcard or a Children's Co-Travelcard for CHF 30 per child. With this card, children from their 6th up to their 16th birthday are entitled to travel free of charge for a whole year when accompanied by their parents or some other adult accompanying person.
- Day Pass Children:
When accompanied by an adult holder of a valid ticket, children from their 6th up to their 16th birthday travel one day in 2nd class for CHF 19 and in 1st class for CHF 33.

A high-speed train, specifically a TGV, is captured in motion as it crosses the Goldach Viadukt. The train is white with a distinctive red and blue stripe running along its length. It is positioned on a multi-arched stone viaduct that spans across a lush, green valley. The background features a large, calm lake under a bright blue sky with scattered white clouds. The overall scene conveys a sense of tranquility and scenic beauty.

Travel suggestions.

Several travel suggestions offer routing ideas for the Grand Train Tour of Switzerland. Some tours take no longer than three days to explore. **Packages at special B2B conditions are available for all journeys.** However, travellers may also experience the suggested routes individually with the Swiss Travel Pass.

“Top Attractions”

A route packed with Swiss highlights – that’s the “Top Attractions” tour. It takes travellers to Lucerne, Interlaken, Montreux and Zermatt. World-famous mountains as well as numerous top sights and landmarks wait to be explored here. Of course, the journey itself holds plenty of charm as well: guests enjoy unobstructed views of imposing glaciers, turquoise lakes, and peacefully grazing cattle – all from the complete comfort of the train seat.

This tour comprises:

- 5 travel stages, starting from 5 days/4 nights
- Scenic rides on the Luzern–Interlaken Express, GoldenPass Express and Glacier Express
- Visits to Zurich, Lucerne, Interlaken, Montreux, Zermatt and Chur
- Top sights such as Chapel Bridge, Jungfrau Region, Lavaux, Chillon Castle, Matterhorn and Rhine Gorge

Luzern–Interlaken Express at Lake Brienz, Bernese Oberland

“Glaciers & Palm Trees”

This tour delivers on its promises: starting from temperate regions, the train climbs to more than 2,000 meters (6,560 feet) altitude. First, imposing glaciers take turns with sparkling mountain lakes in front of the ceiling-high train windows. Shortly afterwards, the train winds its way down to Italy, from where guests can continue to Lugano by bus. Palm trees, vineyards, and mild temperatures dominate this stretch. Perfect for immersing oneself in a little “dolce vita” before tackling the historic Gotthard Line back towards Zurich the following day.

This tour comprises:

- 4 travel stages, starting from 4 days/3 nights
- Scenic rides along the Bernina and Gotthard panoramic routes
- Visits to Chur, St. Moritz, Lugano, Lucerne and Zurich
- Top sights such as UNESCO World Heritage Rhaetian Railway with the Landwasser and Brusio Viaducts, UNESCO World Heritage Three Castles of Bellinzona, Chapel Bridge
- Choice of 10 top mountain excursions, e.g. Diavolezza, Monte Brè, Rigi, Stanserhorn

“Winter Magic”

Frozen lakes, fluffy powder snow, majestic glaciers: that's guaranteed on the “Winter Magic” tour. Starting at Lucerne, the journey proceeds to Interlaken and finally Zermatt – right to the world-famous Matterhorn. After that, the Glacier and Bernina Express trains take guests through the heart of the Swiss winter wonderland to St. Moritz – across landscapes that are cut off from all other traffic in the colder months. For the ultimate snow experience.

This tour comprises:

- 5 travel stages plus 2 adventure days, starting from 7 days/6 nights
- Scenic rides on the Luzern–Interlaken Express, Lötschberger, Glacier Express and Bernina Express
- Visits to Lucerne, Interlaken, Zermatt, Chur, St. Moritz and Zurich
- Top sights such as Chapel Bridge, Jungfrau Region, Matterhorn, Rhine Gorge, Landwasser Viaduct

Bernina Express in autumn near Alp Grüm, Grisons

On 3 June 1973, the first Bernina Express train tackled the legendary Albula and Bernina Line. Since then, roughly 10 million guests have enjoyed the comfortable panoramic coaches. In 2023, the Rhaetian Railways are celebrating their 50th anniversary with various jubilee events.

Route highlights.

Landwasser Viaduct.

Between Thusis and St. Moritz, the 65-metre-high (213 feet) Landwasser Viaduct, coming into view not far from the village Filisur, is the most spectacular bridge construction on the entire Albula Line. The viaduct is made from natural stone and has a length of 142 metres (466 feet). It spans the pristine Landwasser Valley in a bold curve – and dives right into a tunnel.

UNESCO World Heritage Rhaetian Railways.

Since July 2008, the Rhaetian Railways in the Albula/Bernina area has been a UNESCO World Heritage Site. The railway route between Thusis (Grisons/CH) and Tirano (Valtellina/IT) is an excellent example of the technologically innovative development of a mountainous region. As Europe's highest Alpine traversal, it is also one of the most spectacular railway lines in the world.

Bernina Glaciers.

Three impressive glaciers are among the highlights of the journey. In the Montebello curve, a view of the Morteratsch Glacier opens up. The open crossing of the Bernina Pass at 2,253 metres (7,392 feet) a.s.l. with a view of the Cambrena Glacier is another memorable experience. Alp Grüm may well be the only hotel/restaurant solely accessible by train or on foot. During a photo stop, visitors enjoy the wonderful view of the Palü Glacier and the Bernina Massif.

Lago di Poschiavo.

This lake was dammed up by a pre-historic rockslide. Hence, there is no man-made dam in the valley, just a water reservoir at the south end, which helps to control the water level. Le Prese and Miralago, two small villages and popular holiday spots, sit right at the Lago di Poschiavo. At Valposchiavo, the Bernina Express train tracks run along the scenic lakeshore.

Circular Viaduct Brusio.

The Circular Viaduct is the most distinctive landmark along the Bernina Line. Below Brusio, the Bernina Express negotiates a full altitudinal belt in one double loop of roughly 100 metres (328 feet) diameter each – all without a single tunnel. The open route plan over the viaduct offers a full view onto this masterpiece of railway engineering and reveals a breathtaking panorama.

Bernina Express Bus.

Between February and November, the Bernina Express route can be extended aboard the Bernina Express Bus waiting at Tirano. Through the picturesque Valtellina Valley, the journey continues to Sondrio, Morbegno, and the idyllic Lake Como before finally reaching Lake Lugano and returning back to Switzerland. The final stop is Lugano, the cultural centre of Ticino. Of course, guests can enjoy this beautiful bus ride in the opposite direction as well.

Glacier Express.

Deep ravines, high passes, shimmering mountains, sparkling lakes, idyllic mountain villages, 291 bridges and 91 tunnels: the Glacier Express offers all of this and more during its delightful journey of just under eight hours. In over 90 years, this classic among the Swiss panoramic trains has never ceased to amaze its passengers.

GoldenPass Express in Schönried, Bernese Oberland

GoldenPass scenic route.

Where the train window functions as a giant movie screen: Lake Geneva, vineyards, and impressive castles take turns with characteristic Swiss hillsides. Live cinema at its best between Zweisimmen and Montreux.

GoldenPass Panoramic.

The GoldenPass Panoramic really lives up to its name: leisurely, it moves from Zweisimmen in the Bernese Oberland towards Montreux, the fashionable city at the shores of Lake Geneva. High panoramic windows allow travellers to immerse themselves in the diverse scenery – year-round.

GoldenPass Belle Epoque.

The GoldenPass Belle Epoque is more than just a train. The moment guests step on, they feel like stepping back in time: the coaches are panelled in precious wood and adorned with gold-plated decorations. In softly upholstered seats, passengers enjoy the ride between Montreux and Zweisimmen in the style of the Orient Express. The GoldenPass Belle Epoque does not have any surcharge and operates daily and year-round.

Language border.

The GoldenPass scenic route crosses the German-French language border, colloquially dubbed the “Röstigraben” (referring to the cultural differences between the German- and French-speaking parts of Switzerland). Between Saanen and Rougemont, the GoldenPass MOB trains cross the bridge over the Grisch stream, which marks this distinctive language border. The landscape gradually changes to the Mediterranean flair of the “Swiss Riviera”.

Zweisimmen.

Here begins the journey through the tradition-rich Bernese Oberland and the Saanenland to the French-speaking “Swiss Riviera”. It is especially popular with hikers and winter sports enthusiasts due to numerous hiking trails and many kilometres of ski slopes in this village of roughly 3,000 inhabitants. Also, kickbike, bicycle, and mountain bike routes abound. On a side route of the MOB, guests reach the holiday resort Lenk with the waterfalls of the river Simme.

Gstaad.

Known as the health resort of the rich and famous, Gstaad impresses with beautifully decorated chalets and Alpine charms. The Niklaus Chapel and the railway viaduct are well worth a visit. During the intermediate stop, you may even get a chance to stroll through the pedestrian zone, savour the view from the famous Palace Hotel while indulging in a cup of coffee and a piece of cake, or enjoy the aromatic sliced cheese at the traditional Restaurant Rössli.

Montreux.

For more than 50 years now, this musical town has organized the world-famous Montreux Jazz Festival. The successful rock band Queen produced six of their albums in the Mountain Studios at Lake Geneva. In memoriam of Freddy Mercury, a larger-than-life statue was erected in his honour. Fantastic views can also be enjoyed from the Rochers-de-Naye, easily accessible by cog railway from Montreux.

Gotthard Panorama Express.

Gotthard
Panorama Express

When the journey becomes an adventure, guests experience history on the Gotthard Panorama Express. A personal journey by boat and train between Central Switzerland and Ticino.

Operation

Seasonal operation: 15 Apr–22 Oct 2023, every Tuesday to Sunday and all official holidays

Facilities on train and boat

- Boat: historic steamer or modern motor vessel, depending on the period of operation
- Train: composition of 1st class panoramic coaches. Windows in the photo coach in the middle of the train can be opened
- All boats are wheelchair-accessible; no reservation is required. Wheelchair accessibility on panoramic train has to be booked via SBB Call Center Handicap (see **page 86**)

Services

- Multi-lingual tour guidance on the panoramic train
- The journey between Flüelen and Bellinzona is enriched by various stagings and presentations on the history of the Gotthard railway line
- The “Travel Guide” provides detailed information about sights and landmarks along the route as well as the many existing Gotthard myths in four languages (DE, EN, FR, IT)
- Luggage service between Lucerne and Lugano

Catering

- Lunch can be enjoyed in the boat restaurant
- Table reservation recommended for individual travellers, +41 (0)41 367 67 67, info@lakelucerne.ch (no later than 15.00 h on the day prior to travel date); for groups, reservation as well as advance order of a single menu choice for all persons is required, +41 (0)41 367 66 16, gruppen@lakelucerne.ch (no later than 10 days prior to travel date)
- On the panoramic train, regional snacks, beverages and souvenirs are offered directly at the seat

Reservation and surcharges

- The panoramic train is subject to surcharge
- Surcharge is paid at seat reservation and costs CHF 16 per person
- The panoramic train offers only 1st class seats
- Travellers with a 2nd class ticket require a class change for the respective route sections
- No seat reservation available on the boat; free seating

Gotthard Panorama Express in Flüelen, Central Switzerland

We focus on the guest.

Hospitality is a top priority for us. Our Gotthard Panorama Express team consists of travel guides, catering team, and train crew. Every day, we do our best to make our guests feel at home.

Travel guides.

We enjoy the multi-cultural exchange with passengers from all over the world. Guiding them along the fantastic route, pointing out important sights, and sharing fascinating information is our vocation as well as our passion. – Your travel guide.

Catering team.

Guests sit back and enjoy our delicious specialities and select regional wines while taking in the stunning panorama. Whether it's a small snack in between or a cold Ticino-style platter, we are happy to serve passengers on the panoramic train directly at their seats. – Your catering team.

Engine driver.

We take great pride in using our driving skills to “stage” the panoramic route for our passengers. Driving a locomotive requires more than just technical skill: it also takes experience and instinct. The mountain route with its steep gradients and varied climatic conditions adds to the challenge. Interestingly, slow driving requires the greatest attention of the driver. – Your engine driver.

Passenger attendant.

My personal highlight on the Gotthard Panorama Express is the photo coach. It's in the centre of the train and free for all passengers to use as they wish during the journey. The windows in this coach can be opened so that guests can take great souvenir photos. Through the open window, they can even take a close look at the Gotthard Tunnel: nothing stands between them and a ride back in time to the era when the tunnel was built, so to speak. – Your passenger attendant.

Luzern–Interlaken Express.

Luzern–Interlaken Express

The journey is its own reward: the ride on the Luzern–Interlaken Express connects two world-famous destinations and draws to its close more quickly than one would like – guests could forever go on looking at the mountain panorama, turquoise lakes, and countless waterfalls that adorn the scenery.

Luzern–Interlaken Express at Lake Lungern, Central Switzerland

Route highlights.

Five lakes in just under two hours.

Few other lines pass this many lakes: shortly after leaving Lucerne, Lake Lucerne and Lake Alpnach come into view on the left-hand side, followed by Lake Sarnen and the idyllic Lake Lungern. For the last half hour, the route runs along Lake Brienz, shimmering in beautiful turquoise. The journey ends at Interlaken, situated between Lake Brienz and Lake Thun.

Bistro: the rolling à-la-carte restaurant.

Whether breakfast offers, regularly changing lunch menus or themed culinary specialities: the bistro team provides whatever the hungry traveller's heart desires.

Foxtrail "Hermes" – out and about with Zentralbahn.

Foxtrail is an entertaining recreational adventure for friends and families keen on exploring new things. The "fox" roams around and through the train, leaves its tracks in the beautiful landscapes and lets its trackers rediscover the countryside as well as the railway world. Those who want to stay hard on the heels – or paws – of the cunning beast must use their brains, creativity, and power of observation. The ingenious group adventure makes for a perfect day trip for all participants.

Mountain excursions.

Glacier 3000 – the summit of the GoldenPass scenic route.

A must-see in the Lake Geneva region. The ascent by cableway to 3,000 metres (9,842 feet) altitude takes a mere 15 minutes. The breathtaking panoramic view to Matterhorn, Mont Blanc and Jungfrau draws guests to the top, as does the Peak Walk by Tissot – the world's only suspension bridge connecting two mountain peaks.

Operation

Year-round operation, except during revisions – more information on the website of Glacier 3000

Peak Walk by Tissot, Glacier 3000, Vaud

Mountain highlights.

Peak Walk by Tissot.

Walking over the Peak Walk by Tissot – a 107-metre-long suspension bridge – is an adventure in its own right. This suspension bridge – unique in the world – connects two mountain peaks. On the way, guests marvel at no fewer than 24 peaks of over 4,000 metres, among which are Eiger, Mönch, Jungfrau, Matterhorn and Mont Blanc.

Panorama gondola.

Glacier 3000 is one of the best-accessible glaciers of Switzerland. The panorama gondola can transport up to 125 people from 1,500 to 3,000 metres a.s.l. in one go. The ride takes a mere 15 minutes – that's how quickly guests reach this Swiss glacier.

Gstaad – connecting to the GoldenPass scenic route.

With the new GoldenPass Express, visitors benefit from a direct train connection from Montreux (1 h 30 min) or Interlaken (1 h 35 min) to Gstaad. From there, a PostBus takes them to the cableway valley station of the Glacier 3000 in only 30 minutes. So, even the journey there turns into a great experience. Incidentally, lockers are available for the luggage at Gstaad station.

Activities in lofty heights.

This mountain beckons with numerous outdoor adventures. Plenty of activities such as the Peak Walk, the View Point, the Ice Express chair lift and the Snow Fun Park (year-round sledging in the snow) as well as the Glacier Walk are included in the cableway ticket.

Unique highlights.

The experience on the mountain can be individualised by adding further activities: dog sled ride – a singular adventure on a 400-metre-long run; Alpine Coaster – Europe's highest rollercoaster (only in summer); a 15-minute snow bus tour on the glacier (on request).

Gornergrat – Best view Matterhorn.

The Gornergrat is clearly on the must-see list of Swiss highlights. The cog railway takes guests from Zermatt station up to a lofty altitude of 3,089 metres (10,135 feet). The ride alone offers countless picture postcard scenes: the Matterhorn, chalets typical of the Valais, and a stunning mountain panorama.

Operation

- Year-round operation
- In the high season (June–October and December–April), trains leave every 24 minutes halting at every stop (Findelbach, Riffelalp, Riffelberg, Rotenboden)

Top attractions

- Best view of the Matterhorn
- World-famous Matterhorn reflection on Lake Riffelsee
- Unique mountain panorama of 29 breathtaking 4,000-metre (13,000-feet) summits
- “3100 Kulmhotel Gornergrat”: the highest situated hotel in Switzerland
- Multimedia adventure world – “Zoom the Matterhorn”

Arrival

- Valley station of the Gornergrat Railway located directly opposite Zermatt railway station
- Travel time to the summit: 33 minutes

Catering, accommodation and shopping

- Shopping mall and restaurant on the Gornergrat
- More mountain restaurants and hotels at the intermediate stations

Tickets, reservation and surcharges

50% discount with Swiss Travel Pass (Flex) and Swiss Half Fare Card; no discount with Eurail/Interrail

Mountain highlights.

Lake Riffelsee hiking trip.

After a short ten minutes' walk from the station at Rotenboden, visitors are ready to admire the world-famous Matterhorn reflection on Lake Riffelsee. After a nice hike along well-maintained paths – always with a great view of the Matterhorn – guests arrive at the Riffelberg in less than an hour total. With a bit of luck, they may even come across some marmots along the way.

"Meet the Sheep".

During the summer months, roughly 150 black-nosed sheep are grazing on the Alpine pastures between Rotenboden and Riffelberg. They are accompanied by a shepherdess. Hikers can locate the sheep by mobile phone and pay them a visit. A new "Meet the Sheep" theme trail leads past eleven posts from the Gornergrat to Riffelberg. Hikers who do not want to go find the sheep on their own can book a guided hiking tour.

Gourmet ticket.

The Gornergrat gourmet ticket combines a hiking excursion into nature with culinary highlights. An Apéro Riche is served at the 3100 Kulmhotel Gornergrat, then a 3-course gourmet menu at Riffelberg and finally a dessert with a coffee speciality on Riffelalp. The various mountain restaurants are accessible by railway, on foot or on skis in winter.

Highest toboggan run in Switzerland.

With a length of 1.6 kilometres (1 mile), the roughly 10-minute ride from Rotenboden (2,815 m/9,236 ft a.s.l.) to Riffelberg (2,582 m/8,471 ft a.s.l.) is pure fun for young and old alike. Rental toboggans (optionally equipped with children's seats) and special toboggan day passes are available.

"Zoom the Matterhorn".

In the multimedia adventure world, visitors draw closer to the Matterhorn in three zoom stages: with virtual paragliding flights around the Matterhorn, with light projections of all four seasons, and by closely looking at the real Matterhorn with periscopes.

Jungfrauoch – Top of Europe.

A mountain of distinction: not only is the Jungfrauoch home to Europe's highest situated railway station (3,454 m/11,332 ft a.s.l.), it also belongs to the UNESCO World Heritage Site “Swiss Alps Jungfrau-Aletsch”. The ascent on either the “Eiger Express” 3S cableway or the modern cog railway is already an unforgettable experience.

Eiger Express

Since December 2020, the 3S cableway Eiger Express takes guests from the top modern Grindelwald terminal to the Eiger Glacier station in just 15 minutes. With only one simple change of transportation, visitors reach the Jungfrauoch – Top of Europe a full 47 minutes faster than before, which leaves more time to experience and admire: views onto a majestic panorama and attractions such as the Ice Palace or the Snow Fun Park at 3,454 metres (11,332 ft) altitude.

Mountain highlights.

Snow Fun Park.

At the Snow Fun Park guests can get refreshed and try their hands at various winter sports. "Snowtubing" with pirouettes on an inflated hoop, speeding down the slope on a sledge, zip-lining over eternal ice on the Flying Fox or skiing and snowboarding – all of this is possible in the Snow Fun Park. What's more, it can be done spontaneously: equipment is available for rent right there. The ultimate way to experience snow even in summer.

Sphinx viewing platform.

Pressing a button, shooting up, enjoying the mountain panorama: it takes the lift a mere 25 seconds to overcome 108 metres (354 feet) altitude and arrive at the viewing platform at 3,571 metres (11,716 feet) a.s.l. Once there, it's just a matter of inhaling deeply and enjoying the view. Incidentally, Europe's highest research station is also located at the terrace. It is of paramount importance to environmental scientists, astrophysicists, and meteorologists.

Ice Palace.

The more ephemeral – the more beautiful! This is especially true for the "Ice Palace" and its treasures. With ice pick and saw, mountain guides created the halls and corridors in the middle of the Jungfrau firn in the 1930s. Today, artists shape the ice – with a delicate touch. On an icy round tour through this frosty world, guests discover artworks in many niches. Eagles, penguins, and bears look like they've just solidified into ice, so real do they appear. A heart-melting experience, even at minus temperatures.

Alpine Sensation.

Anybody who steps into the 250-metre (820 feet) long corridor leading from the Sphinx Hall to the Ice Palace experiences a shiver down the spine. And that's not only due to the freezing temperatures but also to the memory of the sacrifices that mountain workers made in order to open the Jungfrauoch to railway technology. 30 memorial plaques bear witness to it. The background music causes goose bumps as well: together with pictures of touristic visionaries, it lets the beginnings of the Jungfrau Railways come to life.

Jungfrau-Panorama.

There are times that a person "cannot see the mountain for all the clouds" on Jungfrauoch. That has nothing to do with bad weather, however – on the contrary. Clouds are fascinating. Who hasn't dreamed of bathing in that fleecy-soft miracle? The Jungfrau Panorama film makes it possible. It offers a 360° panoramic experience of the mountain world, in a way it could never be had otherwise – 365 days a year. The camera takes visitors for a dive into the clouds, let them sink into crevasses and plunge into masses of snow. Independent of what the weather is like outside.

Mount Rigi – Queen of the Mountains.

This mountain is a realm of adventures – 365 days a year. At the heart of Central Switzerland, located right between Lake Lucerne and Lake Zug, Mount Rigi is perfect to access from all sides. Simply by train, bus and boat to the foot of the mountain and then up by cableway or cog railway.

Rigi Railway in autumn, Rigi, Central Switzerland

Mountain highlights.

Hiking variety.

A broad hiking network of some 120 kilometres (75 miles) is available for guests on Rigi, offering open spaces away from the hustle and bustle of everyday life. From a comfortable, barrier-free walk to easy hiking tours to mountaineering. Those who like to challenge the mind in addition to the feet should visit one of the popular theme trails.

Swiss tradition.

What springs to mind at words like “tradition” and “Swissness”? The ringing of cow bells? A delicious slice of bread with cheese on a plate or alphorn blowers on a mountain peak? On the Rigi – Queen of the Mountains – all of this can be had. The mountain in the heart of Central Switzerland allows visitors to experience pure Swissness.

Relaxation at the spa.

Sore hiking muscles can regenerate wonderfully in the mineral bath & spa on Rigi Kaltbad: during a relaxing bath in the spacious indoor-and-outdoor pool, in the spa area with sauna and resting zone, or during a massage.

Railway rides – from historical to modern times.

The Rigi Railways use historic trains on the line from Arth-Goldau to Rigi Kulm every day. Visitors enjoy this singular experience of riding up the Queen of the Mountains in well-preserved vintage coaches. Afterwards, take a brandnew, energy-efficient train back down to Vitznau.

Winter hiking.

The possibilities on the Rigi are virtually endless, both in the summer and the winter. 35 kilometres (22 miles) of perfectly maintained hiking trails, from easy altitude walks to two-hour panoramic hikes. Enjoying the pristine snowscapes on three signposted snowshoe trails between 1.1 and 3.5 kilometres (0.7 to 2.2 miles) in length makes for a very special experience.

Culinary highlights.

Bathing and hiking quicken the appetite. Fortunately, the next “Beiz”, as the locals affectionately dub restaurants, is never far away. Offers range from Rigi alpine cheese fondue at the “Alp Chäserenholz” to the “terroir” food concept of Hotel Edelweiss, where only local products are processed. Numerous restaurants with comfortable terraces invite visitors to linger and enjoy.

Schilthorn – Piz Gloria.

The Schilthorn area stands for view, thrill and chill: unforgettable views, adrenaline rushes and pure relaxation in a pristine mountain world. By train and bus guests reach the valley station Stechelberg. From there, a cableway takes them towards the Schilthorn summit at 2,970 metres (9750 feet) altitude.

Operation

- Year-round operation, except during revision from 24–28 Apr and from 13 Nov–08 Dec 2023

Schilthorn with Eiger, Mönch and Jungfrau in the background, Bernese Oberland

Mountain highlights.

360° restaurant Piz Gloria.

Perfect – before or after exploring the mountain: within 45 minutes, the revolving 360° restaurant Piz Gloria completes one full rotation while the breathtaking panorama – a genuine natural spectacle with more than 200 mountain summits – silently glides past. The restaurant serves its guests a wide range of dishes: the popular James Bond Brunch and the delicious 007-Burger among other culinary delights. An additional highlight is the “Piz Gloria Zvieri”, which invites to a comfortable conclusion of the excursion to the Schilthorn. In the company of friends – and of a delicious cold platter with local cheese and meats and a glass of Swiss wine.

Film location “On Her Majesty's Secret Service”.

The Schilthorn acquired world renown as the filming location for the James Bond Movie “On Her Majesty's Secret Service”. To this day, one can follow in the footsteps of the world's most famous secret agent on Piz Gloria. The interactive exhibition “Spy World” delights Bond fans with movie scenes and background information. In the “Spy Cinema”, visitors experience the film scenes up close. From the outdoor terrace, the “Walk of Fame” leads to the Skyline View Platform, where a gorgeous panoramic view onto the surrounding mountains awaits. It even amazed James Bond.

Skyline Walk and Thrill Walk.

Visitors experience a veritable adrenaline rush on the “Thrill Walk”: starting at the platform, the walk leads along a cliff footbridge of 200 metres (656 feet) in length, passing below the cableway station and then turning back towards Birg station, all over glass and grid floors – and a steel cable. Guests enjoy a special view of Eiger, Mönch and Jungfrau from the viewing platform “Skyline Walk” at the Bistro Birg, where visitors are invited to take a rest.

Mountain village Mürren and Allmendhubel.

On a sun terrace high above the Lauterbrunnen Valley sits the village of Mürren. Eiger, Mönch and Jungfrau, the “big three”, seem to be right within one's reach. The picturesque, car-free mountain village attracts visitors with its characteristic wooden chalets and a wonderfully rustic atmosphere. Those who like things a little more active can take the cog railway to the Allmendhubel, from where various hiking trails lead back to Mürren. Fun is also guaranteed for families on the Allmendhubel: in the adventure playground “Flower Park” with the water labyrinth attraction.

Services.

Luggage services.

Travelling without luggage: so carefree and so easy. Swiss public transport luggage services make it happen. Luggage can be conveniently transported from any international airport worldwide to selected destinations in Switzerland as well as point-to-point within the country.

Luggage

Luggage is conveniently delivered door-to-door within Switzerland, i.e. from hotel to hotel or to a private address. Various time slots are available for the collection of the luggage. It is also possible to deliver from station to station. For this, the luggage must be dropped off and picked up at the respective luggage counter.

Flight luggage

Foreign airport to Switzerland

No matter which airline and from which international airport, the luggage is transported directly to a desired address in Switzerland via Zurich Airport. Likewise, luggage can be sent to selected Swiss railway stations. This is also possible for car-free destinations. Depending on the arrival time at the airport, the luggage will be delivered either on the same day or the following day.

Switzerland to foreign airport

The luggage is collected at the station or hotel the evening before the flight and taken to Zurich Airport. There, it can be picked up at the SBB luggage counter and checked in independently. For passengers travelling with SWISS or Edelweiss Air, luggage can be checked in at collection. It is then transported directly to the destination airport abroad. Luggage can be collected from all Swiss addresses and at selected railway stations.

Group luggage

For groups of 10 or more people with a maximum of 50 pieces of luggage, group luggage service is available at a flat rate. The luggage must be registered at least 5 working days before transport. It is then transported to any address in Switzerland within one day. Likewise, transport is possible from any foreign airport to any address in Switzerland (including car-free locations).

Checking in flight baggage at the Check-in desk

Luggage insurance

Railways provide coverage of up to CHF 2,000 per luggage item in case of damage, late delivery, or total loss.

Lockers and luggage deposit

Guests can leave their luggage at the station and explore the surrounding area by train, bus and boat carefree. Lockers are a convenient solution for travellers visiting a city for a brief stopover and moving on shortly thereafter. Luggage deposit is ideal for large or valuable items, which are deposited at a counter. Access to the luggage is limited to the opening hours of the respective counter.

Services on the train and at the station.

Shopping and catering facilities

Most stations in Switzerland are also attractive shopping and service centres. Guests enjoy delicious food prior to their sightseeing tours or meander through the arcade and benefit from a wide range of shopping and catering facilities.

[sbb.ch/en/station-services](https://www.sbb.ch/en/station-services)

SBB WiFi – free internet at the station

No fewer than 80 SBB stations throughout Switzerland offer free internet access. Highspeed internet access, continually adjusted to the customers' needs, is provided.

[sbb.ch/wifi](https://www.sbb.ch/wifi)

SBB Change

At some 130 railway stations in Switzerland, more than 100 currencies can be changed into Swiss Francs. Larger stations offer evening and weekend services at their currency exchange counters.

[sbb.ch/change](https://www.sbb.ch/change)

Lost and found

Something got lost on the train or at the station? A report of loss can be filed online. The owner is then notified as soon as the item has been recovered.

[sbb.ch/en/lostandfound](https://www.sbb.ch/en/lostandfound)

SBB onboard catering

On certain trains, guests enjoy SBB restaurants offering a choice of selected dishes. SBB restaurants are indicated on timetables by the symbol ✕. There is an SBB bistro (✕) on the lower deck of most InterCity doubledeck trains. On numerous train connections, passengers benefit from at-the-seat service in 1st class.

[sbb.ch/en/rail-catering](https://www.sbb.ch/en/rail-catering)

Quiet zone

In the quiet compartment in 1st class travellers can read, work, or simply relax without being interrupted by unwelcome noise. Trains with quiet zones are indicated "RZ" on timetables.

[sbb.ch](https://www.sbb.ch)

Business zone

InterCity trains offer workspaces complete with power supply, optimised data transfer, amplifiers for mobile phone reception, and large work surfaces in 1st class. Trains with business zones are indicated "BZ" on timetables.

[sbb.ch](https://www.sbb.ch)

SBB FreeSurf

With the SBB "FreeSurf" app, SBB offers a free, fast and secure internet connection on all national long-distance trains. Travellers from abroad surf free-of-charge with the SIM card of a participating provider.

Family trip with luggage service

SBB family coach

All InterCity double-deck trains are equipped with a jungle-style or dragon-themed family coach marked "FA". Located on the mid-upper deck, these zones offer a playground for children to frolic around as much as they please. Also, all tables in family coaches are equipped with entertaining board games. Changing tables in the restrooms as well as pushchair parking bays are available on the lower deck.

Bicycle self-loading and shipping bicycles in Switzerland

Holders of a valid bicycle ticket can selfload their bicycles and e-bikes onto most SBB trains and private railways as well as most PostBuses. A bicycle reservation is required on some PostBus lines, from March to October on IC trains and all year round on EC, ICE and Railjet trains. The reservation requirement is marked in the timetable with the "bicycle reservation" symbol.

In Switzerland, bicycles can be checked-in as luggage at all railway stations with a luggage counter and shipped to any destination station. More information at:

Safer travel – travelling safely with luggage.

Travelling is a wonderful thing, and there should not be anything in the way of enjoyment – least of all luggage theft. Here are a few tips and reminders how to stay safe when travelling through Switzerland with luggage and where to get help in case of need.

Prior to travelling

- Have copies of important documents (passport, ID, etc.) made
- Never carry a lot of cash
- Print travel documents and take the prints with you
- Write down the IMEI number of your mobile phone

In case of theft

Contact the nearest police station immediately. In case of theft, a report can be filed. Emergency number: 117
